*I object to the proposed development.*

*I am concerned as I have family who live in close proximity to the site and they have young children. What health impacts would the pollution this development have on my nephews? One is a newborn baby. The suggestion to stay inside when the winds pick up is ridiculous. It is reckless of the government for it to be considered for approval being so close to residential properties.*

*I'm also concerned regarding air and water contamination, and the impact on the waterways. Micro plastics are a major issue that could not be avoided if this development proceeds.*

*Please reconsider this development - it is not the right site.*
