*I understand the need for more plastic recycling facilities in Australia but so close to a residential area in Moss Vale NSW is not the right site. There are so many reasons not to build here. Affecting air quality, waterways, traffic and be a visual eyesore in the Southern Highlands is a danger to the community. Surely there is a safer and better alternative location to this proposed development. Perhaps reducing and working towards zero plastic use in Australia with major retailers is where this money could be focused.*
