I am a resident of the Southern Highlands, the parent of a young child and a health professional working in the local community. This is not the right site for the proposed facility. I am concerned about the health risks for the local community from the operation of this facility, and the potential for exposure to pollutants via air and water that could impact health in the short and long term. There are other, more suitable locations that need to be considered, further from residential areas and with less impact on highly populated areas.

This is not the right site.
