*I strongly oppose the proposed Moss Vale plastics recycling facility.*

*The Southern Highlands area is a major tourist attraction due to its natural environment. The proposed facility is located in a sensitive location, immediately adjacent to picturesque countryside.*

*There are a small number of homes nearby. These homes and the residents will be impacted by large numbers of trucks on roads, not constructed to accommodate such heavy traffic. In addition, there are school zones nearby which will be directly impacted with extra traffic.*

*It is inappropriate for the proposed recycling facility to be located in an area which is frequently enshrouded in fog, often until till midday. The air pollution will adversely affect the air quality for nearby residents.*

*The proposed recycling facility must be re-located far away from residential areas, farming areas and the all important water catchment area.*

*I urge the Planning Department to refuse this inappropriate recycling facility.*
