*I object to this proposal. It is not the right site.*

*I have family that live close by to this site whose children I care for on a regular basis. It is troubling to know a facility like this will potentially be on their doorstep.*

*I am also deeply concerned regarding pollution and contamination to the air and waterways. Micro plastics have a horrendous impact on health and well-being and the facility will be a massive producer of micro plastics, polluting a delicate ecosystem with a Sydney Water catchment.*
