Organisation: N/A	Key issues: <i>Social impacts, Land use compatibility (surrounding land uses), Traffic</i>
Location: <i>New South Wales 2576</i>	
Attachment: N/A	

Submission date: 11/17/2024 3:20:46 PM

*As a younger generation we are making changes to better our future and correct the destruction of our land that the previous generations have done to our world.*

*We have worked hard to help ban plastic straws, plastic cutlery, plastic bags and minimise plastic waste.*

*This goes against the Labour government's commitment and policy to meet the new green targets and the very reason labour government was elected in.*

*This will be a big mistake for the labour government to approve as we will make this the oldest objection to labour in an election year ahead.*

*Allowing a foreign company to use our land for personal gain is a sign of weakness for our country and shows weakness in our leadership.*

*Our elected officials should be protecting our land for future generations and work with the people to find better solutions to such a solvable issue.*

*We will campaign against the labour government on this issue and look to generate a very loud and disruptive voice for our people against this self gratifying approval.*
