I am completely opposed to this project.

Moss Vale and the Southern Highlands has a unique and diverse eco-system which will be affected detrimentally by this industrial monstrosity.

Additionally, no-one can absolutely guarantee that there will not be any leaking of chemicals and by-products into the air, water and land... potentially affecting the health and wellbeing of tens of thousands of local residents, flora and fauna.

Moss Vale and the surrounding district is also a major food-production location and I cannot see the sense of locating this project next to farms, nurseries, child care centres and homes.
