*The developers are not informed sufficiently regarding local knowledge of the area.*

*The water quality will be affected not only in the area but extending to other parts of NSW.*

[REDACTED]

*Most importantly, the local residents will have the value of their properties and their enjoyment of the area they chose to live for quality of life will be severely impacted. Their air quality will be compromised and the CEO's solution is to "limit time outside". Seriously?? Isn't this supposed to be an 'environmental' company?*

[REDACTED]

*I don't live in the area but I live in regional NSW and I fear this could be the start of destroying our beautiful regional areas, where we have chosen to live to get away from the chaos of cities and industry.*
