Organisation: N/A	Key issues: <i>Social impacts, Other issues</i>
Location: <i>New South Wales 2019</i>	
Attachment: N/A	

Submission date: 11/15/2024 11:34:29 AM

*To not include health impacts as a key concern is deplorable. This facility WILL hurt people with air pollutants with a report already advising that residents 'limit their time spent outdoors' and you are well aware of this. This location is entirely inappropriate and the area categorically does not have the infrastructure to support a site of this enormity. Listen to residents, listen to Council, and listen to the science. Why is foreign profit again being prioritised over the wellbeing of tax paying citizens? When this inevitably affects Sydney's drinking water, the people responsible for allowing this disgusting display of corporate greed to proceed should be held personally responsible and liable. Please reconsider relocating this project to a site more appropriate - as opposed to one of the most picturesque towns in Australia.*
