Submission ID: 215092

Organisation: N/A	Key issues: <i>Social impacts, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: New South Wales 2576	
Attachment: N/A	

Submission date: 11/17/2024 7:40:19 PM

This recycling facility should not be in a residential community. From the various submissions we have learnt (1) dangerous disregard for wind impact carrying ultra fine particles across the district, (2) dangerous disregard for local resident health, (3) deceptive and misleading structure drawings omitting smoke stacks, (4) air filtration technology that is below community standards, (5) extreme fire risk due to poor design, (6) total disregard for the impact of the constant truck movements and impact on already fragile road infrastructure, (7) complete disregard for preservation of the local environment, (8) [REDACTED], (9) the site is absolutely inappropriate. The project for existing Moss Vale site must be blocked.
