Dear Planning Commission, I strongly urge you to deny permission for the Plasrefine recycling Center. Whilst the need for such a facility is undeniable this location is completely wrong. Plasrefine should be located well away from residents, farmland and our Sydney water catchment area it should be located in an already degraded industrial zone not smack in the middle of this beautiful agricultural area. As well as highly detrimental environmental and health effects, the traffic concerns about 100 large trucks passing through every single day is considerable.

Please DO NOT allow this to go through! It is not acceptable to put our local environment at risk like this.

Yours sincerely

Jill pickering
