I object to the deterioration of our air quality that will happen to our area if this reprocessing factory is allowed. Traffic in the Moss Vale area had already become gridlocked so there definitely will be an increase with 100 trucks arriving and leaving the area. We came to this area for clean air and a life without chemical fallout. Regardless of what is being stated for safety I do not believe this is what will happen.

The Government is elected by the people, so WHY isn't the Government listening to the people of Moss Vale.
