Submission date: 11/20/2024 7:43:56 PM

The southern highlands is not the area for a plastics recycling plant. It is far too close to waterways. The roads and infrastructure surrounding the site are not appropriate and can not be updated to a standard needed for the amount of trucks. Surrounding land owners have been told to go inside if the air quality is poor.

Will not help the community in any way. Only degrade tourism which a large portion of moss vale survives on.

Abr site will be compromised. We need them to further scientific research
