Hello,

I am a business owner, whose property is only 150 m from the proposed Plasrefine plant.

My concerns for this facility to go ahead are.

Wrong site , of which is too close to neighbouring, houses, other industrial facilities, farming land and water catchment.

My understanding of the many submissions put forward is that the majority of local residents and business owners have grave concerns for the disruption and pollution to the surrounding and overall community.

My family have lived in Moss Vale for over 140 years. My grandfather Jack Whyte was a force to build Moss Vale to what it is today, his hard work and dedication to the citizens on the community has never been fully recognised, however he would be horrified to think that, this beautiful town could be polluted by a facility that NO one wants.

Please do not allow this facility to go ahead in our town.

For the sake and future of our town and generation to come.

Thank you for the opportunity to have my say.
