The proposed plastics recycling facility poses a detrimental impact to not only the Southern Highlands community, but far-reaching to a much larger area. My opposition is based on the environmental impact of contamination to land, water, and air quality of our area, plus these then impacting detrimentally to all the residents of our shire and beyond, and my concern is for the long-term affects on all of the above. This recycling facility must not be approved at all, and any alterations to the proposal should be declined as well. Please put residents before \$.
