Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>Redacted</i>	
Attachment: N/A	

Submission date: 11/16/2024 11:03:56 PM

*Why does the Local Council , State and Federal members, & the local community all speaking with one voice about a massive Plastics recycling facility mean nothing!!*

*They have and will always say NO !! This is not the right place!!*

*Just the massive traffic load on our rural roads is reason enough to realise it is totally inappropriate. A conga line of trucks will change this tranquil country escape treasured by Sydney Siders as a close rural weekend escape from the city will be destroyed. It is a significant part of the Sydney water catchment area , a treasure not to be dismissed so lightly. Australia has plenty of land which would be more appropriate for the placement of plastics recycling facility . The plastic waste needs to be transported by rail to minimise*

*the damage to roads and surrounding areas.*

*This is a quick fix by a government who has left finding*

*a more appropriate place to the last minute and doesn't care about the damage the quick fix*

*option will cause to the Treasure that is the Southern Highlands of NSW .*

*A unique & irreplaceable natural*

*beauty and the lungs of Sydney.*
