We are long time residents of the area and my husband and children and grandchildren are all born here. We encourage development but it has to suite the area and residents. Please remember the beauty we are given by natural bush and many fabulous private gardens, we are known as living in the country. None of these huge recycling industries should be encouraged here , Campbeltown has huge space for these and we definitely don't need unnecessary trucks on our roads, please support us the community who are trying very hard to keep a certain healthy environment for our future.
