Organisation: N/A	Key issues: <i>Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>New South Wales 2576</i>	
Attachment: N/A	

Submission date: 11/18/2024 7:36:10 PM

*Whilst I fully support the possible treatment or recycling where possible of all used material, all such activities must be carried out in suitable and safe locations.*

*I am totally opposed to the construction of this Plastic Recycling Facility in Moss Vale which is close to residents and the water which could ultimately affect Sydney residents.*

*The statement that residents could remain safe by limiting their time outdoors is absolutely ridiculous.*

*I would suggest that all members of the Independent Planning Panel and all members of NSW State Parliament be asked if they and their families would be prepared to live next to this site and therefore expose themselves and their children to contamination and have up to 100 trucks per day driving past their homes.*

*If they give an honest answer and say no, then they should oppose this project and look for a better site for its construction.*
