I am totally against this proposal due to the environmental impacts, traffic problems, further damage to roads which are already a disgrace, not to mention the impact on property prices in all surrounding areas. Not everything in our lives should be determined by large cashed up companies trying to steamroll the little man they pretend to care about. This community has already more than outgrown the infrastructures provided and this proposal would further denigrate this area and the people who have tried to escape the cities by coming here to give their family a better life. If this proposal goes ahead they may as well return to the cities where these type of developments are more blatantly approved. Our families who relocated to this beautiful area should be allowed to live here for the reasons they have come to call the Southern Highlands home.
