*I strongly object to the Plastic Recycling Facility going ahead in Moss Vale.*

*We have family in the Southern Highlands and were considering moving down there from Sydney. If this goes ahead there is no way we will buy, move or rent in the region.*

*For the residents who live there and all communities across any region or town who value safety, clean air and water, the protection and growth of biodiversity and natural habitat, this plastic recycling facility threatens all of these things and if it goes ahead, sets a horrific example of what can happen to any town, community and our basic human rights.*

*Focus more attention on better initiatives to prevent the use of plastics instead of trying to plug a problem and tick a box whilst in the process creating a damaging mess.*
