*I object to this development, the size & output of this factory needs to be placed a minimum of 10 kilometres from family homes & suburban built up habitable areas for the health & safety of citizens & residents. The heavy movement of trucks associated with this development is detrimental to the already existing poor roadways.*

*The environmental concerns have thus far been overlooked. And I urge those with authority on this decision making to look deeper into this application & the future detrimental effects this will pollute longterm & degrade what is part of a unique area within the Southern Highlands.*
