I am concerned of the impacts of this proposed centre and its effects on people, flora, the waters, and fauna. I am concerned about the micro-plastics and its impacts on health. Plastics are not healthy for people or animals. This plant will create a lot of disruption for the local people with truck traffic. This is a really beautiful part of our county and this plant will be a very ugly addition to the place. It will have impacts on local environment and community. Please reconsider where this plant goes!
