*I am strongly OPPOSED to the proposed Plasrefine facility on the grounds that it will be an environmental travesty for the Southern Highlands area, as well as the broader Sydney catchment.*

*The high likelihood of micro plastics flowing into the Sydney water catchment is unacceptable. The other (many risks) to the public include local environmental degradation, traffic risks with the high volume of truck movements, and it will no doubt destroy the Southern Highlands Tourism industry. I have family living in the Southern Highlands as well as Sydney and I do not want the younger members of my family growing up with their water supply irreversibly and dangerously polluted by this.*

*Moss vale is NOT THE RIGHT SITE for this facility.*
