NSW Independent Planning Commission

Â

*Subject: Formal Objection to SSD-9409987 - Plasrefine Moss Vale Plastics Recycling Facility*

*Dear NSW Independent Planning Commission,*

*I am writing to formally object to the proposed Plasrefine Moss Vale Plastics Recycling Facility (SSD-9409987). I have significant concerns regarding the potential negative impacts of this development on the environment, public health, and the character of the Southern Highlands region.*

*Key Concerns:*

Â \* *Environmental Impact:*

Â Â \* *Air Pollution: The facility's operations may release harmful pollutants into the air, including particulate matter and volatile organic compounds. This could exacerbate respiratory issues and other health problems for local residents.*

Â Â \* *Water Pollution: Potential risks of water pollution include contamination of local waterways and groundwater sources from runoff, spills, and leaching of chemicals.*

Â Â \* *Noise Pollution: The facility's operations, including truck traffic and machinery, may generate significant noise pollution, disrupting the peaceful nature of the Southern Highlands.*

Â Â \* *Microplastic Pollution: The recycling process may release microplastics into the environment, posing a threat to wildlife and ecosystems.*

Â \* *Public Health and Safety:*

Â Â \* *Increased Traffic: The increased truck traffic associated with the facility will pose risks to road safety and congestion in the local area.*

Â Â \* *Odor and Visual Impact: The facility may generate unpleasant odors and visual blight, negatively impacting the quality of life for residents.*

Â \* *Impact on the Character of the Southern Highlands:*

*Â Â \* Incompatibility with Rural Character: The industrial nature of the facility is incompatible with the rural and agricultural character of the Southern Highlands.*

*Â Â \* Devaluation of Property Values: The presence of the facility may negatively impact property values in the surrounding area.*

*I urge the NSW Independent Planning Commission to carefully consider the potential negative impacts of this development and reject the proposal. The Southern Highlands is a valuable natural and cultural asset, and it is imperative that we protect it for future generations.*

*Thank you for your time and consideration.*

*Sincerely,*
