I wholeheartedly object to the Plasrefine plastics recycling facility being located in Moss Vale, or anywhere in the Southern Highlands that has such close proximity to homes, schools and the community.

The level of pollution it will bring to the area is unacceptable. Our population ranges from the elderly to young children and the health impacts will be destructive and irreversible.

Secondly the impact to traffic on the area is fraught with danger and poses more unacceptable damage to our community.

There must be many many other areas that the facility can be located. Look elsewhere, look further afield where the impact to persons, wildlife, the atmosphere and waterways will not be so devastating and destructive.

This absolutely cannot go ahead!!
