I work in moss vale everyday and already the congestion from traffic is terrible and the roads are terribly maintained as it is , adding more large large trucks and other vehicles to that will , undoubtedly add to these current problems. Also I believe myself and my family who live close to this development deserve to live healthy lives and this development puts that at risk , givin that the air quality will decline and the possibility of micro plastics finding its way into drinking water is extremely worrying . I feel the negative impacts of this development heavily outweigh the positives. Therefore i believe this development should not go ahead .
