*To think that building this facility within arms reach of a residential area is atrocious. Residents are being told to keep their kids inside instead of being able to play outside in their own backyards, what happened to the great Australian dream of owning your own land to raise your family!!!!*

*An existing childcare centre is almost within site, as is Lackey Park and the Basketball Stadium, both centres that are busy with children playing sport and potentially breathing the rubbish that will be in the air if this development is allowed to proceed.*

*What about the waterway that flows into the water catchment not onyl for the local area but for Sydney Water to draw from.*

*No-one in their right mind would think that building this within the town is a good idea. Put yourself in our shoes, would you want this in the back yard of your children or grandchildren? I doubt it*

*Please do the right thing for the rural community and stop this development*
