I live approximately 450 meters across the paddock from this proposed site and I have asthma, excema, hayfever and autoimmune disorders I have enough trouble breathing already also have a vegetable garden which I don't want my food contaminated. My grandchildren come to stay and play in their sandpit and trampoline regularly and I don't want them harmed or have to be locked inside or have all these toxins seep into my house under every crack under my doors or garage which is attached to my house which we leave open all day when we are home. We didn't buy a 5 acre property over 30 years ago to be imprisoned by someone who comes here from another country to ruin our lives
