*I work for Wingecarribee Shire Council and I am a resident of Moss Vale. My role at Council is head of tourism and events for the region. We rely on tourism, most of it agricultural based for the economic health of the Shire and its existing residents and businesses. The introduction of this facility in the location suggested will not only damage reputation but also has severe impacts upon the agritourism industry.*

*I am not in support of the location of the facility. I believe that a recycling facility is needed for the state, but not be placed in such an environmentally sensitive location. The risks of contamination to Sydney's and the regions water, food and air is too great and will effect those well beyond the borders of the Wingecarribee LGA.*
