I have 2 small children and this will mean we need to move if this goes ahead because I won't subject them to toxic plastics from this facility- it is detrimental to everyone's health and it will ruin the livelihood of my hometown the southern highlands - birth abnormalities, big health issues to young and old will be inevitable and this is a disgrace if this goes ahead

I object to Plasrefine going ahead for my reasons above - this is NOT the right site to build a plastics recycling operation in what is becoming a suburban landscape.

Take this out to another site pls and do the right thing.
