Location: New South Wales 2577	
Attachment: N/A	

Submission date: 10/20/2024 7:18:34 AM

My beautiful town of Moss Vale has always been a welcoming place, a place where all generations have come to settle, grow and get involved with their community. They have made it a better place, given it life and ensured its survival as a special place. Those who have always been here know the hills, the rivers and the native flora and fauna like the back of their hands and they know the short cuts when having to circumnavigate the traffic in the main street. Our town is thriving but if the Plastics Recycling centre goes ahead, it will cause no end of headaches, both to our health, our wellbeing and how we manage to get around our already congested streets due to prior planning mismanagement with new subdivisions and no bypass for the trucks. Our beautiful air will be polluted with smells and noise and our waterways will likely be effected too if this company does not follow the rules. Please, I beg of you to put a stop to this development. Our town will never be the same again if it goes ahead. Thank you.
