*My family have lived in the southern highlands for close to 40 years. In this time we have seen a lot of growth in the area. While progress is an inevitable consequence of our modern times I don't feel that constitution of a facility like this is suitable to our community. The possible health impacts to people has not been addressed and the impact to our water ways completely ignored. We choose Moss Vale as a place to raise our family and feel that this facility will be a direct impact on our health and lifestyle. I understand that industries like this may be a statement of the times, but this site is not the right site for it to be constructed. please consider the impact on the people of the Southern Highlands and say NIT THE RIGHT SITE*
