Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: New South Wales 2577	
Attachment: Attached overleaf	

Submission date: 10/22/2024 8:26:55 AM

*I object to this proposal due to the following reasons:*

- nanoparticles of plastics entering the water supply catchment areas is against the law*
  - we have legislation that prohibits health risks to the community*
  - traffic including trucks and commercial vehicles continuously streaming into and out of residential roads in a residential zone*
  - impact is detrimental on wildlife against native animal protection laws*
  - against the noise restriction laws*
  - it needs to be in an industrial area no where near residential and business areas*
  - health risks on community mean already overloaded health system will increase*
  - people and landscape will become sick and polluted due to toxic factory in an unsuitable area*
  - it's a threat to the health and safety of Wingecarribee Shire residents (and Sydney and Goulburn) and the decision makers will be held accountable by law*
-
