*I work at Southern Highlands Early Childhood Centre, which I believe will be greatly affected by this Plastics Recycling Facility.*

*The traffic is already dangerous enough as it is, without adding even more trucks to the equation that will fly past ignoring the speed signs as they do, as well as affecting the children during sleep times.*

*The air pollution alone is what scares me the most, as someone who is yet to have children it scares me to think of what breathing in plastics will do to me. Let alone what it will do to the little people in our care here at the Centre.*
