Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: New South Wales 2577	
Attachment: N/A	

Submission date: 10/22/2024 2:25:12 PM

*I oppose the proposal in full. The site is the WRONG location with its close proximity to;*

*Residential Land & homes,*

*The Garvan Institute,*

*A short distance to schools & childcare (3-4),*

*The increased traffic movement 24/7 & its physical & environmental impact on our small township,*

*The close proximity to the Riparian Water way which intern flows directly into the Wingeraribee River & Finally into the Warrigamba Dam,*

*All & any plastic emissions cannot be fully contained given the traffic volume intended,*

*A fire at this facility is a risk in the proposed landscape & we are not fully serviced to respond to such a fire.*

*I object to the environmental impact & potential risk of catastrophic fire/disaster should it at any point fail. This is not the right site for this facility. It should be isolated and many kms from environmental, cultural & social impact.*
