Location: New South Wales 2576	
Attachment: N/A	

Submission date: 11/25/2024 2:05:15 PM

I object to the location and scale of the project. It is too close to homes, farmland and schools. It is too large and will be visible from everywhere in the countryside.

The truck movements alone are concerning, 100 a day in a beautiful countryside. There will be noise, pollution and that does not even take into account the damage to roads that are already damaged. The safety of pedestrians and children may also be a problem.

Environmental issues are paramount, there will be noise, and plastics pollution in the form of nanoparticles escaping unseen into the ozone. These will be deposited into our water supply endangering our wildlife and potentially harming the inhabitants of Bowral and surroundings.

IT IS THE WRONG LOCATION. Please reconsider.
