I support recycling but not in the proposed location. It is too close to local housing, the impact if something does wrong (fire, etc) could be catastrophic. Also it is located in the catchment of the Wingecarribee River which flows into Warragamba. Please consider a location further from houses and with more scope for containing contaminated water. Also the amount of trucks coming in is not good for the local area and there is bound to be some plastic waste blowing into the local environment. Thank you
