Quite simply... this is not the right site!!

I am a responsible recycler of household contents, clear plastics, clothing, etc.

And I do believe we need a solution for hard plastic recycling. But, we do not need it to happen in our town so close to private homes, and local schools.

The pollution that this facility will generate in our town and water is not acceptable.

Not to mention the lack of appropriate infrastructure to accommodate their operations. We are already struggling with bad roads, an influx of new residents, and traffic issues... that will only get worse without the long lost Moss Vale Bypass plans being put into action.

I STRONGLY object to this proposal being approved in it's current location.
