I vehemently oppose the proposed development of Plasrefine, as the proposed site (which will be classed as heavy industrial)is too close to residential areas, schools & the town itself.

The environmental risks to our area, which is rural & provides Sydneys drinking water seems way too reckless to even be considered.

Moss Vale is already clogged with traffic & desperately needs a by pass, the factory will only add to this daily problem with more vehicles of workers & trucks, obviously adding to noise & air pollution.

Our rural areas should be protected & cherished, they are not places for heavy industry, they are crucial to keeping a nation feed & healthy & not worth the risk of any environmental disaster which is always a possibility with this processing.

Please protect Moss Vale (& the Southern Highlands) from this factory as it is too rare a jewel to be destroyed by this 24hr processing plant.

many thanks....Leona.
