*I am a young adult who has just finished school, who has grown up in Moss Vale. My home is 900m from this proposed site.*

*I STRONGLY OBJECT to this proposal - it is NOT THE RIGHT SITE.*

*My generation will inherit the mess created by facilities such as these. We now know so much more about chemicals which do us harm - why does this company want to subject us to more? This is far too close to houses, daycare, and the primary school I went to. When the westerly wind blows the microplastics will waft straight over my high school.*

*Kids have a right to grow up in healthy environments without the threat of harm just from going outside. There is too much cancer in our world already - please don't add to our risk factors.*

*I want to have the chance to grow old.*
