Submission date: 11/24/2024 10:06:52 PM

I am 2 years old and you are making a decision that will directly affect my health outcomes. Waste management of plastics results in the release of toxic substances to the air, water, and soils. Exposure to these toxic substances poses extreme health risks. These include impacts on birth outcomes, child neurodevelopment, reproductive health, metabolic endocrine and nutrition systems.

For you, the outcome of your decision will have no effect on your well-being. In your position of power, I am asking you to advocate for me. Please consider me, and the effect it will have on my well-being.

Regards

Matteo
