*I hold great concerns over the proposed Plasrefine Facility being located in our community. The detrimental effects in terms of our health and wellbeing and that of our wildlife cannot be understated. As a person in my 20s, I'm worried for my future here and that of my family and my future children. The impact on the environment, especially the air we breathe and the water we drink, is going to cause significant damage, much of which we can't even begin to fully know the long term effects of.*

*Having a facility such as this in the middle of a populated area makes no sense and is blatantly callous and dangerous. How can there be so little regard for the health of our community?*

*This facility cannot go ahead here. Please do better.*
