Location: <i>New South Wales 2576</i>	
Attachment: N/A	

Submission date: 11/23/2024 7:06:21 AM

The proposed location is inappropriate. Too close to residential areas and waterways and areas used for recreation including the very popular Bong Bong commons. There is little information about the chemicals used in the process and the potential pollution from the process. The truck movements will be significant. A proposal of this size and scope should be situated further from population centres. I believe offers have been made to assist with securing a more appropriate location.
