Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>New South Wales 2577</i>	
Attachment: N/A	

Submission date: 11/23/2024 1:27:41 PM

The planned sight is too close to a populated residential area and the facility will cause pollution of the surrounding areas.

This will impact the wellbeing of all residents of southern highlands and surrounding areas connected through water supply.

It is only:

One minutes drive from the proposal sight to a child care facility, also

5 minutes drive to MossVale town centre,

3 minutes drive to St Paul's primary school, 4 minutes drive to St Paul's college, 5 minutes drive to MossVale primary school and KU MossVale childcare centre, and 6 minutes to another two child care facilities.

I agree we need to have solutions for plastics to be recycled, however this needs to be done in a way that supports the health and wellbeing of all in the surrounding areas.
