I am writing to object to the proposed Moss Vale Plastics Recycling Facility.

The proposed site is unsuitable

- given its close proximity to the town of Moss Vale, with its residential homes, shopping precinct & light industry

- given the proximity of a preschool, 2 primary school and 3 secondary schools.

- given its proximity to the Wingecarribee River and other local water reservoirs which form part of the Sydney catchment area

The proposed facility is to operate 24/7, 7 days a week. I am concerned about the adverse effects of pollutants - such as noise, air/water pollution by plastic residues and traffic pollution and its impact on the health and lifestyle of those living in the whole of the Southern Highlands AND on the domestic and native animals in the district.

I am also concerned that this project will so change the nature of the Highlands that many businesses and residents reliant on tourism will suffer as numbers of visitors drop.
