I own [REDACTED] and the alarming DA for the Plasrefine refinery is planned for a site that would be just over the hill behind my property: way too close for comfort, with air pollution my main concern. I just can't believe this proposal has got so far; surely the decision-makers were asleep at the wheel. Or heaven help us, did AI make the final decision??

I am very concerned about the inadequate buffer zone, and of course about the steady stream of trucks transporting plastic.

And beautiful Moss Vale will be stuffed as a special place to live, and as a tourist destination.

Quite simply: this is not the right site. Please make this right.

Sincerely,

[REDACTED]
