Submission ID: 218011

Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: New South Wales 2576	
Attachment: N/A	

Submission date: 11/25/2024 9:23:18 AM

*I attended two of the Meetings at Bowral (28.10 and 1.11.24) to hear the extensive and compelling submissions against the proposed Moss Vale recycling facility from local residents and official representatives. On both days the venue was FULL and all speeches were from the heart and covered health of residents in the municipality, children's health and their proximity to the facility, huge and constant traffic issues that would daily really impact on residents' lives, inability for current use of private land to be utilised for crops/grazing as at present, the lack of efficient design, proximity to current homes, and importantly to our current residents, the social aspect that we were born into, or moved to along our lives, that meant our uprooting from our previous lives for a better way of life.*

*Most importantly,*

*I object, along with the many submissions you will receive, to this facility!!*

*Regarding the box below I have stated above, that my name and address is not to be published.*
