*I understand the importance of plastic recycling, however would like to flag the importance of not allowing so much plastic to be used in the first place.*

*We need government regulations to deminish the use of all plastics.*

*The plastic recycling plant proposed for Moss Vale is something that we now require due to the unfettered use of plastic, however, putting it in the proposed location is unacceptable.*

*There are numerous other areas that could be used, well away from residential areas.*

*Suggest other sites further down the highway be investigated.*
