I am concerned about the potential impacts this development could have on local quality of life, public health, tourism and the overall rural character of Moss Vale.

The facility's close proximity to homes, schools, and farmland presents a potential risk of harmful emissions which could lead to air and water pollution impacting the health of local residents, ecosystems and wildlife. The anticipated increase in volume of heavy vehicle traffic would significantly disrupt the peace and safety of the area.

For these reasons, I strongly urge the Commission to reconsider this proposal and explore alternative locations.

Thank you for considering my concerns.
