I am born and raised in Moss Vale. As a young person, I am very concerned about the future pollution to our area as well as the Sydney Water Catchment area. Our family home when I was a child is very near the proposed site and the impact of the trucks would be awful. I attended the daycare near there and went to the local schools (both primary and high school). This is not the right site for such a large industrial development. Please consider the impact on the local area as well as the future of the residents.

Please reconsider this development. It is not the right site for many reasons. Please listen to the voices of the Community, young and old.
